

ASTRONOMY

With the use of KOWA-SYSTEM Astronomy adapters, a Kowa scope can accept standard 1.25" fitting astro eyepieces and adapters for night sky observation and photography. Combine with the Kowa TSN-EX16 1.6 extender for deep space object viewing.

LONG RANGE

Whether viewing distant birds on an estuary bank or rocky craters on the moon, the Kowa TSN-EX16 1.6x extender brings you closer with breath-taking detail.

Delivering up to an incredible 96x magnification when combined with our flagship TSN-880/770 series spotting scopes and compatible eyepiece.

OBSERVATION

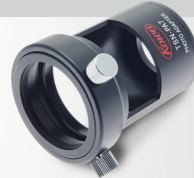

The finest spotting scopes deserve the finest eyepieces. The range of Kowa sublime eyepieces are designed to suit a variety of viewing applications. KOWA-SYSTEM even makes possible the use of 'historic' eyepieces with our latest optics.

DIGISCOPING

Kowa scopes are 'designed to digiscope' out of the box and are ready to accept our range of simple and affordable digiscoping adapters. Whether you just want to capture a record shot or a professional grade, super telephoto image, KOWA-SYSTEM incorporates adapters for compact, DSLR, micro four thirds and compact system camera bodies.

SMARTPHONE

The KOWA-SYSTEM includes a range of smartphone adapters for most iPhone and Samsung Galaxy models. These adapters are specifically designed to operate with Kowa scopes providing perfect and effortless connection in seconds. The results can be truly outstanding. Download our purpose built App in the App store for greater functionality.
