

FITTING THE STRAP

Slide strap (F) over the front of the scope and secure to the press studs on both sides of part (A).

Attach the two front clips on strap (E) to the rings on strap (F).

Attach the rear clip on strap (E) to the ring on part (B).

Ensure the strap is not twisted before use for maximum carrying comfort.

CASE PARTS

The objective lens hood (C) includes a useful objective lens cap holder. This holder is designed to hold the objective lens cap when the scope is in use.

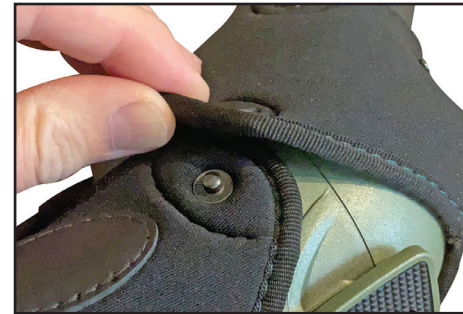

CAUTION: Always remove the objective lens cap from the holder and secure it back on to the scope body when transporting your scope and the objective lens hood is attached to the main body of the case.

Pull part (A) over the barrel of the scope.

Slide part (B) over the eyepiece and fit over scope body. The plastic loop should be at the top.

Connect part (B) to part (A) using the press studs on both sides of the scope.

Slide the eyepiece cap (D) over the eyepiece.

Secure on to both sides of part (B) using the press studs.

Secure the stay-on-tab to part (B) using the press stud.

Slide on the objective lens cap (C) and secure on to the top press stud on part (A).

Secure the stay-on-tab to part (A) using the press stud on the underside of the scope.
